FREE SafeCare® training for sites that qualify for a research study!

What is SafeCare?

- SafeCare is an evidence-based parenting model used to prevent and reduce child maltreatment
- SafeCare is used with families who have children ages 0-5
- SafeCare trains parents in three skill-based modules: positive parenting, home safety, and child health.
- SafeCare is conducted via 18 in-home sessions

Who should apply for training?

Child welfare systems and agencies are eligible for training if they currently:

- Serve child welfare referred populations
- Provide in-home parenting services for families with children ages 0-5
- Interested in using a structured intervention model
- Have two or more teams of providers that provide similar services

Why SafeCare?

- Reduced recidivism in CPS reports
- Long-term cost benefits
- Reduced paperwork via SafeCare Mobile App
- Low rates of turnover and high provider satisfaction
